sufficient quantities of hygiene and cleaning products necessary to make your school safe?	84.66% 160	15.34% 29	189

#	IF YOU ANSWERED NO TO ANY OF THE ABOVE PLEASE DESCRIBE THE CAUSE FOR YOUR CONCERN	DATE
1	Difficulty accessing additional cleaning staff. Very hit and miss at the moment.	4/30/2020 7:55 AM
2	We don't have a lot of relief teachers of an acceptable quality that I want to employ long term. We will find the "best one" but the time frame has been short and we have more to do. My CSM doesn't work on the holiday breaks and whilst we did have an appropriate level of equipment we missed opportunities to stock up. We are fine - but it is hard to change that attitude in regards holidays.	4/29/2020 9:16 PM
3	Ordered sanitizer and disinfectant but has not arrived yet despite being told it would be delivered before today	4/29/2020 8:49 PM
4	Order of hand sanitizer not arrived by start of term.	4/29/2020 6:44 PM
5	Can't get computer wipes.	4/29/2020 6:10 PM
6	Struggling obtaining hand sanitiser and wipes for equipment. We have limited supplies, possibly a week.	4/29/2020 4:50 PM
7	This may differ in the future if circumstances change	4/29/2020 4:46 PM
8	Cleaners - screening an issue and filling hours.	4/29/2020 3:42 PM
9	Cleaning staff will not be Full time during school hours due to the fact we dont have a cleaner on staff. We are relying on a casual cleaner to clean around her other job and a relief teacher to do casual cleaning to cover the school day as bestw e can (Probably about 75% of the week covered when students are on site).	4/29/2020 3:35 PM
10	We are awaiting on deliveries for some cleaning items and protective gear.	4/29/2020 3:31 PM
11	I didn't answer 'No' to any of the questions, but I can't overstate the frustration and the difficulties of meeting the cleaner/cleaning requirements.	4/29/2020 3:29 PM
12	Are trying to access cleaners at this point however can manage with what we have	4/29/2020 2:59 PM
13	I've not had to use relief as yet. Cleaning (though previously done by myself at the end of Term 1 and an EA) is now sorted by extending current hours for our cleaner.	4/29/2020 2:53 PM
14	Haven't needed any additional support staff.	4/29/2020 2:47 PM
15	No PPE	4/29/2020 2:40 PM
16	Goggles are on order. We have everything else we need.	4/29/2020 2:33 PM
17	Unanswered are N/A	4/29/2020 2:14 PM
18	We have some at the moment but will run out. Ordering of more stock eg sanitiser soap has been problematic	4/29/2020 1:20 PM
19	We have not been to obtain wipes. We had to go and pick up products as delivery would not have been until the end of next week.	4/29/2020 12:51 PM
20	we are waiting for our supply of hamnd sanitizer but were able to access suppl;ies from district office Just hope ours arrive by edn of the week	4/29/2020 12:30 PM
21	Lack of Special Needs Education Assistants for relief	4/29/2020 12:26 PM
22	Was not able to secure additional sanitiser for today. By the time we contacted the department, the 6,000 bottles were gone.	4/29/2020 12:22 PM
23	In the country difficult to find extra cleaner to fill extra FTE. Our cleaner is elderly herself and not able to fill whole allocation.	4/29/2020 12:20 PM
24	Regional schools do not have access to large relief teaching, EA and support staff pools.	4/29/2020 12:16 PM
25	Delivery delay in Sanitiser ordered recently but due later today hopefully	4/29/2020 12:06 PM
26	the co-located school are trying to locate additional cleaning staff	4/29/2020 11:51 AM
27	Lack of quality relief staff.	4/29/2020 11:47 AM

Commencement of Term 2 Planning Survey

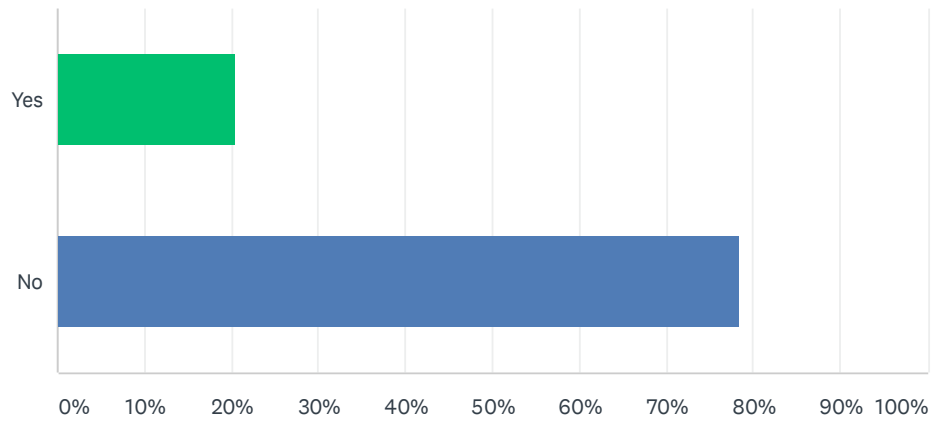

SurveyMonkey

28	I have spoken with the MCS from our shared site PS and been advised that we do not have enough antibacterial wipes.	4/29/2020 11:40 AM
29	Cost or additional hand sanitizer disinfectant cleaning materials quite expensive if this regime is to continue for the extended period of time	4/29/2020 11:25 AM
30	Ongoing issues with hand sanitizer	4/29/2020 11:24 AM
31	Still need PPE - no masks	4/29/2020 11:22 AM
32	Limited availability of EA's in a rural setting	4/29/2020 11:17 AM
33	Have ordered santiser from a few places but they are very tardy in replying. Even those on the CUA. The DOE supplied 5L stock bottles of sanitiser, but not smaller pump bottles to put it in.	4/29/2020 11:12 AM
34	I am waiting for a delivery of wipes ordered off the Goods website as directedby DoE last week. Not sure when they will come!	4/29/2020 11:11 AM
35	Supplies not available until next Friday. Had to purchase ourselves from various sources.	4/29/2020 11:09 AM
36	Investigating additional cleaners. 2 permanent cleaners have been given additonal time to work throughout the day.	4/29/2020 10:53 AM
37	difficulty cleaning according to the guidelines even with additional FTE	4/29/2020 10:48 AM
38	Have needed to source additional staff for cleaning this has included contacting EAs on our relief staff and school officers on days that they are not working in the office	4/29/2020 10:40 AM
39	Using relief EAs as cleaners	4/29/2020 10:38 AM
40	We do have enough hygeine and cleaning products but we have had to be very proactive and resourceful in sourcing these. It has been costly and time consuming because we are still waiting on several back orders.	4/29/2020 10:36 AM
41	Only have staff member for 3 weeks - will be looking at people in the pool.	4/29/2020 10:30 AM
42	Can often order products but order does not complete or delivery isn't possible.	4/29/2020 10:28 AM
43	Scarcity of cleaners in our region being available for relief.	4/29/2020 10:27 AM
44	We have a pool of cleaners who are unavailable and the pool from the DET we have been unable to find someone within our school region who will travel here. the websites we are directed to go on to buy product are backlogged and unable to take our orders.	4/29/2020 10:13 AM
45	We rearranged cleaning roster as no one to employ, on cleaner away sick and one on LSL	4/29/2020 10:13 AM
46	Cleaning Staff we have our internal staff covering until we can get screening number sorted for the person who will be here during the day as it is too much fo our cleaners. We have put in an order to the Goods, on the CUA but will not be able to honour timely deliveries, we have to either collect it ourselves or pay for a courier to collect..	4/29/2020 10:06 AM
47	Still waiting on sanitiser to arrive	4/29/2020 10:00 AM
48	Hand sanitizer was not delivered despite reassurances on ordering. Picked up half of school needs by going to SMREO.	4/29/2020 10:00 AM
49	not needed	4/29/2020 9:52 AM
50	PPE difficult to procure. Could be more centralised for ESCs.	4/29/2020 9:50 AM
51	Cleaning has been an issue we've worked around as the sanitizer paid for by Finance is going to take at least a week to be couriered. We were offered to collect it later this week however we're 2hrs from Belmont and this isn't an option. We've sourced some from a local supplier to last until our order arrives.	4/29/2020 9:45 AM
52	Hand Sanitiser	4/29/2020 9:37 AM
53	Spray bottles that are equipped for cleaning playgrounds	4/29/2020 9:33 AM
54	Hand Sanitiser is in very short supply, Regional Office has a supply and will be available for next week. Relief teachers in this country school is always problematic, similar to relief EA's.	4/29/2020 8:56 AM
55	We didn't replace staff absent due to class numbers	4/29/2020 5:30 AM

56	Following DoE advise tried to get hand snitiser from dept and there was none left, had to then source other supplies	4/28/2020 12:04 PM
57	Using the pool to find 3 teachers, very difficult all have positions.	4/28/2020 11:40 AM
58	Unfortunately it is due to the isolation of our little school in the Wheatbelt.	4/28/2020 11:35 AM
59	The obtaining of cleaning supplies through the Department of Education is not as straightforward as made out to be.	4/28/2020 11:32 AM

Q8 Has the need for physical distancing created pressure on available space to house students?

Answered: 186 Skipped: 3

ANSWER CHOICES	RESPONSES	
Yes	20.43%	38
No	78.49%	146
TOTAL		186

#	PLEASE DESCRIBE	DATE
1	Lots of kids away. Doing our best in training the kids to make space.	4/30/2020 7:55 AM
2	Physical distancing measures not required in classrooms	4/30/2020 7:26 AM
3	No - because the premise of your question is incorrect. There is no requirement for social distancing in schools so we are not really trying to do more than physical distancing (ie no touching). It is impossible on my site (yard) or in the classroom to create a 4m ² area. We are endeavouring to empower staff to create this space in their rooms but this is hard as well.	4/30/2020 7:14 AM
4	Classroom sizes, large already crowded school	4/29/2020 9:33 PM
5	Double standards of what is appropriate at school and in the community.	4/29/2020 9:16 PM
6	But this has been removed as an issue now so it's settled down significantly	4/29/2020 6:15 PM
7	We haven't tried to based on recent recommendations from department.	4/29/2020 6:10 PM
8	There is no need for physical distancing of students in the school setting - AHPPC guidelines	4/29/2020 5:06 PM
9	With current student numbers and the availability of spare classrooms this has been managed so far	4/29/2020 4:46 PM
10	Physical distancing for students was revised	4/29/2020 4:00 PM
11	No req for physical distancing with students.	4/29/2020 3:42 PM
12	We are fortunate to have mostly double classrooms available and as such can spread students around.	4/29/2020 3:31 PM
13	Single classrooms limited space for class sizes sizes - working with students with reminders	4/29/2020 3:06 PM
14	With only 50% children at school there is room to house children.	4/29/2020 2:58 PM
15	We don't have to do physical distancing of students and staff room is large enough	4/29/2020 2:53 PM
16	We have low numbers so space has not been an issue for us.	4/29/2020 2:53 PM
17	Due to the numbers of students who have attended we have been able to space students within classrooms. If the number of students increase this is going to impact on our ability to do this.	4/29/2020 2:47 PM
18	not applying with students	4/29/2020 2:40 PM
19	Impossible with over 850 students on site	4/29/2020 2:05 PM
20	in older classrooms where some year 5 & 6 students are taught	4/29/2020 1:44 PM
21	We have only 450 students and the school was built for 1100. We are not social distancing (1.5m) in classrooms. There is enough space outside so break times are not a problem.	4/29/2020 1:26 PM
22	No spare classrooms to house extra kids	4/29/2020 1:12 PM
23	The school is an old DHS with an abundance of classrooms.	4/29/2020 1:03 PM
24	Almost all classes have more than 12 students in them and we do not have the space in our school to split the larger classes.	4/29/2020 12:55 PM
25	We don't need to social distance in the classroom. Outside is fine. Staffroom is being managed	4/29/2020 12:51 PM
26	With some senior classes having 22 in the room, physical distancing is not an option.	4/29/2020 12:47 PM
27	We have a large number of empty classrooms so each class has a double room space.	4/29/2020 12:31 PM
28	But the change in AHPPC guidelines to rid us of the 1.5m rule for students, this is no longer an issue. I suspect many parents will be upset and may keep kids home because of it. Still office space remains an issue.	4/29/2020 12:22 PM
29	School is at capacity to house timetabled classes so have no spare classrooms on grid. Natural environment makes it difficult to run classes outdoors as temperatures are still reaching 35-39 degrees during the day.	4/29/2020 12:16 PM
30	Not at the moment but when all students return physical distancing within classes will be impossible.	4/29/2020 12:15 PM

31	As we are a boarding school we still have no students on site	4/29/2020 12:11 PM
32	No requirement to Physically distance students as per AHPPC guidelines update on 24th April.	4/29/2020 12:06 PM
33	As we have only had about half the number of students, there is plenty of space in classrooms	4/29/2020 11:56 AM
34	we had a lack of space previously, so this is really difficult. Housing staff with distancing is harder	4/29/2020 11:51 AM
35	We are following the chief medical officer advice that 1.5m does not apply to students.	4/29/2020 11:48 AM
36	Due to the removal of this requirement.	4/29/2020 11:29 AM
37	Large school with all classes at or near Ind limits. There are no spare classrooms in this school. As more students return, this situation will deteriorate.	4/29/2020 11:28 AM
38	Given the large percentage of students attending school in some classes, we are not fully complying with social distancing with students and are not using alternative areas as this has now been removed from the AHPPC guidelines	4/29/2020 11:27 AM
39	New school. Plenty of space as only 2 year groups	4/29/2020 11:27 AM
40	We are not SD in class or playgrounds AHPPC. Staggering arrival and dismissal times plus recess and lunch times.	4/29/2020 11:25 AM
41	Plus BMW building works, ceiling replacements	4/29/2020 11:24 AM
42	physically don't have alternative spaces to put students.	4/29/2020 11:17 AM
43	There would have been an issue if the distancing for students had remained as a regulation in the AHPPC advice. As soon as that had been lifted, there was no longer any pressure.	4/29/2020 11:15 AM
44	My students are just all in their own class and will be despite numbers that attend. Where possible students have been spread out but still in the classroom.	4/29/2020 11:11 AM
45	not applicable in school so therefore classes are running as per timetable.	4/29/2020 11:06 AM
46	N/A	4/29/2020 11:05 AM
47	We have not physically distanced students in classrooms as per instructions.	4/29/2020 11:05 AM
48	Impossible in a classroom.	4/29/2020 11:04 AM
49	We no longer need to worry about 1.5m between students	4/29/2020 10:48 AM
50	Physical distance rule does not apply to students, and we are a small rural school.	4/29/2020 10:46 AM
51	some classes already at or oversized have high return rates.	4/29/2020 10:42 AM
52	with the amount of students and adults in each room has meant that social distancing for adults has been difficult. Additional, to this is those student who require two people to manage behaviours or toilet students	4/29/2020 10:40 AM
53	Bo need to physical distance in the classrooms as per guidelines	4/29/2020 10:38 AM
54	Not required by physically distance students.	4/29/2020 10:30 AM
55	limited numbers returned at this stage. fortunately we have some double classrooms and extra space	4/29/2020 10:28 AM
56	We are an older school without adjoining doors or wet areas for classrooms. We have veranda's but these will not be able to be used in wet/cold weather.	4/29/2020 10:19 AM
57	Impossible	4/29/2020 10:15 AM
58	We have no empty classrooms, but with the 1.5 removed for students this is not as big an issue	4/29/2020 10:13 AM
59	we are not required to physical distance but being sensible	4/29/2020 10:13 AM
60	As our numbers increase so will the pressure around physical distancing	4/29/2020 10:09 AM
61	Because this is no longer a requirement.	4/29/2020 10:05 AM

Commencement of Term 2 Planning Survey

SurveyMonkey

62	Our classrooms are small but the requirements have been relaxed	4/29/2020 10:00 AM
63	Limited undercover areas, have utilised staggered recess and lunch breaks to help	4/29/2020 10:00 AM
64	ESC is a small centre and we do not have that many classrooms.	4/29/2020 9:53 AM
65	As a new school in a growing area our classes are at or above capacity. We have no spare classrooms and will not be seeing new transportables rooms until at least next term. This is despite requesting these prior to the end of the the 2019 school year after the 4 we were granted were no longer going to be enough.	4/29/2020 9:53 AM
66	we haven't	4/29/2020 9:52 AM
67	Gov has said this doesn't apply to students, only staff.	4/29/2020 9:50 AM
68	But the guidelines have seemed contradictory at times	4/29/2020 9:48 AM
69	There is no need as per government and national health advice. I think this is a totally pointless question.	4/29/2020 9:39 AM
70	only two year groups in the college	4/29/2020 9:36 AM
71	Does not apply to students.	4/29/2020 9:33 AM
72	Not yet as numbers are low.	4/29/2020 9:28 AM
73	Students are quietly anxious.	4/29/2020 9:18 AM
74	Size of classrooms, seating available for students at breaks.	4/29/2020 8:56 AM
75	We don't need to distance students	4/29/2020 5:30 AM
76	There is no 1.5m requirement any more	4/28/2020 2:04 PM
77	Need to use another linked classroom and then challenge by other program delivery room	4/28/2020 12:04 PM
78	Since 1.5m rule and 4m2 rule does not apply to classrooms. Not implementing this in classrooms. Just for adults in common areas.	4/28/2020 11:48 AM
79	Since the Department, through advice from our Health Department, has relaxed social distancing inside classrooms, we will be able to manage our small amount of students.	4/28/2020 11:35 AM
80	Smaller groups of students have required us to use verandahs, walkways, wet areas and assembly areas as teaching spaces and this is not conducive to optimum learning.s	4/28/2020 11:23 AM

Q9 Briefly describe the greatest challenge(s) confronting you in your role as students return to school in the first few weeks of term?

Answered: 184 Skipped: 5

#	RESPONSES	DATE
1	Places for all the kids to wash their hands. This is the biggest bottleneck. Keeping up with the changes and some inconsistent messaging. Latest issue was 3 different expectations of PPE for cleaner cleaning playground equipment.	4/30/2020 7:55 AM
2	Change fatigue How to provide for learning at home. I want teachers in their classes focussing on those students at school.	4/30/2020 7:26 AM
3	(1) 64% of students in class and 36% at home means staff are inevitably required to manage two types of learning. This cannot do anything but create more work for staff - but I note they are willingly doing this. (2) Social v physical distancing in schools only is frankly a farce. Staff are trying to suck it up but we are all aware we are the Canary in the Coal mine. We accept this is probably inevitable and necessary and that schools probably are safe but the lack of govt recognition of this illogical situation while part of a marketing strategy is also bemusing to all of us. Otherwise - so far so good.	4/30/2020 7:14 AM
4	Uncertainty for staff around mixed and changing messages especially for vulnerable staff	4/29/2020 9:33 PM
5	Staff Health and (mental) well being. The students are resilient and adaptable but staff analyse, research, debate the issues and at times either overreact or panic, stress over the issues. Yes...I know it has very serious and dangerous possibilities but we can only control what we can control eg. health & hygiene.	4/29/2020 9:16 PM
6	Managing the work packages - teachers under pressure to get them planned, ready & printed. Organising time,space, and staff to manage collection of packages by families. Teachers finding time to respond to work uploaded by students learning @ home and/or answer questions from families and students on Seesaw. It is great of department to say teachers don't have to teach F2F and online BUT who pays for other teachers to manage the learning @ home students? We have no salary budget surplus to fund ourselves & teachers prefer to look after their own students as they know them best! It is a mighty task!	4/29/2020 8:49 PM
7	-	4/29/2020 8:38 PM
8	Keeping staff morale high and building confidence in the community that our school can effectively manage the COVID-19 situation.	4/29/2020 6:44 PM
9	Too many to mention... mixed messages... lack of respect for the profession.... lots of uncertainty about reporting to parents and what staff are required to do.... comments being made by the minister has stressed teachers out and I spend much of my time explaining to them the realities as opposed to what was said as many things have been amended or corrected since she said them....	4/29/2020 6:15 PM
10	Expected 85:15 split of face to face and online teaching Managing AWAs for staff	4/29/2020 6:10 PM
11	Small number of staff don't agree with department recommendations. Pick up and drop off went smoothly but was time consuming. Teachers worried about having to maintain 2 modes of learning in future. Reluctance to use department resources as they have no alignment with what is happening in their classes.	4/29/2020 6:10 PM
12	All is well	4/29/2020 5:57 PM
13	Mixed messages from government , unions and PFWA.	4/29/2020 5:51 PM
14	1. Social distancing of staff in terms of ensuring their mental health and wellbeing. They are forced to be in isolated groups 2. Managing balance of Face to Face and Remote formats with ever changing numbers 3. Social distancing of parents at pick up times as numbers increase. 4. Not being allowed to have parents of K-Yr1 students on site and the anxiety this causes for many of the young students who already have their worlds turned upside down. 5 Anxiety of staff over quality access to curriculum and impossible nature of accurate (or any) assessment. Reports must not be completed for Semester 1 and decision communicated now! 6. Inconsistency amongst schools. We are following Govt messages, but we know of schools with staff in full PPE gear (supposedly not needed) and others where Principal colleagues have emailed that 'only essential workers children should attend'. Our staff hear about these and so do some parents. This creates concern and anger. 7. OHS for cleaners around play equipment cleaning. Some structures way to tall and children climb up...cleaners can't and shouldn't. Message given that we 'can't spray' but have to 'wipe'....	4/29/2020 5:06 PM
15	Managing staff anxiety. Re timetabling to accommodate increased cleaning requirements.	4/29/2020 5:03 PM

	Effectively linking the home learning with the onsite learning.	
16	Keeping up with the barrage of information that keeps flowing into my inbox and need for many people wanting responses to surveys or information. this and other Department personnel sending emails with and often repeating the message being sent via Ikon to keep themselves busy!!	4/29/2020 4:50 PM
17	Anxiety of staff Balancing the 3 modes of learning	4/29/2020 4:46 PM
18	The time taken for planning and communicating with parents and staff to ensure orderly and safe drop off and pick up of students for day 1.	4/29/2020 4:38 PM
19	Parental & staff uncertainty & concern. Several members of the school community feel like the restrictions have been eased too soon. MCS has taken family carers leave this week and may adjust hours next week.	4/29/2020 4:31 PM
20	Managing the information flow in and out, getting the school back into a routine	4/29/2020 4:00 PM
21	The parents and students not communicating when they are working at home.	4/29/2020 3:53 PM
22	Keeping parents out of school grounds and managing the logistics of students coming to school and leaving.	4/29/2020 3:53 PM
23	The unknown numbers of students coming in and catering for the diff learning.	4/29/2020 3:42 PM
24	Sorting and maintaining the cleaning requirements	4/29/2020 3:35 PM
25	Teachers workload	4/29/2020 3:35 PM
26	Managing teacher's workload (including emotionally), managing the cleaners workload, maintaining a clean school, managing parents expectations and experiences around working at home with their child/children, Admin staff picking up extra yard duties because staff are working from home.	4/29/2020 3:31 PM
27	The greatest challenge has been accepting the Governments ill-thought-out decision to give parents the 'choice' of returning to school. It was totally disrespectful of the teaching staff. A more appropriate decision would have been to either have all students back on day one; (with the exception of vulnerable students and those whose parents are essential workers) or have all children learning at home until Week Four (or whenever that decision is made. Very poor form, poor decision making.	4/29/2020 3:29 PM
28	Ensuring all cleaning is done to meet the standards.	4/29/2020 3:27 PM
29	Scheduling start and finish as well as duties due to multiple break and staff getting their head around the changes	4/29/2020 3:18 PM
30	Checking to see if students who have not returned are doing the work that has been set online and as work packages	4/29/2020 3:14 PM
31	Different message from Dept last term to this term - expectations that teachers and admin can and will work through holidays. Mixed messages govt health and Dept.	4/29/2020 3:06 PM
32	The uncertainty which is exacerbated by people contradicting the Department of Health and their messages. Not having all of the students back at school yet.	4/29/2020 2:59 PM
33	Our biggest challenge is ensuring a viable learning at home program, including the delivery and collection of learning packs as parents are not allowed on-site.	4/29/2020 2:58 PM
34	The fact that the students at home are not accessing the home learning packages prepared so are not learning. our parents do not have online access!	4/29/2020 2:53 PM
35	Firstly, ensuring that my teaching staff feel comfortable and informed about there responsibilities in regards to face to face and online teaching. Also, that the huge amount of efforts that were put into planning for a non face to face Term 2 were not a waste of valuable time. Also, trying to second guess what parents will do in regards to when they will send their children back to school and thus being prepared for that eventuality. Clarity on reporting. We could really do with this!	4/29/2020 2:53 PM
36	Ensuring the staff feel safe and supported in providing face to face teaching after all the work they put in for the remote learning. Calming their fears of having to do both. Trying to cater for social distancing when told it is not required at schools. Ensuring cleaning is catered for and	4/29/2020 2:52 PM

constantly done. There are so many contingencies to consider in cleaning processes. Having no fence around the school to protect us and having to monitor entry and exit points.

37	The cleaning FTE provided only enable us to manage the cleaning of the high contact items and surfaces within the school , classrooms, toilets, wash troughs, door handles, desks, handrails etc We have had to re-task the gardener to sanitise the playgrounds as there is insufficient time provided within the allocation for the additional cleaner to be able to do this as well.	4/29/2020 2:47 PM
38	Our greatest challenge will be students who are at home not accessing the online learning - especially our high school parents and those who have parents that do not value education. This makes it frustrating for the teachers who are spending the time putting work together and uploading it. The majority of our students who were accessing the learning online are now at school.	4/29/2020 2:47 PM
39	Planning for an unknown student attendance rate	4/29/2020 2:42 PM
40	Changing goal posts	4/29/2020 2:40 PM
41	EAL parents understanding all of the communication we have been providing. Some parents still trying to come onto school grounds. Everything else was very smooth.	4/29/2020 2:33 PM
42	Continuity of learning across whole school population	4/29/2020 2:25 PM
43	Timing of actual arrival of orders of cleaning products - although we have sufficient quantities (self sourced), we can't rely on the orders filled. Sheer amount of work required to maintain an effective and safe site in terms of human and physical resources. We are working on many fronts - usual busy load of running a school of over 90 staff and 908 students as well as COVID-19 load and additional Home Schooling Planning and delivery (which includes video, phone and technological deliveries)	4/29/2020 2:25 PM
44	Settling students back in a return to school Parents with capacity to keep children home send the child to school Staff uncertainty still exists which leads to anxiety	4/29/2020 2:23 PM
45	Safe exiting of school. Parents' indecision re: whether or not their children should come to school - confusion messages between media and government.	4/29/2020 2:14 PM
46	Staff morale and uncertainty .	4/29/2020 2:05 PM
47	Continued mixed messages regarding what is safe in the community and what is safe in a school. Additional work required catering for students at school and students at home.	4/29/2020 2:04 PM
48	Having to operate what is currently a full version of our two timetables (metro K-10 school) and still implement distance learning. Some aggregation of classes is envisaged from tomorrow but that brings its own consequences. I wouldn't want to be the teacher sitting alone telephoning kids at home when my colleagues were in classrooms teaching kids.	4/29/2020 1:57 PM
49	Drop off and pick up as no parents allowed on site.	4/29/2020 1:57 PM
50	Managing expectations of Department,Parents & Staff. Ensuring that everyone is safe and being able to provide a continuing education for those parents who have chosen to keep their children at home.	4/29/2020 1:54 PM
51	Space available and managing social distancing between staff	4/29/2020 1:44 PM
52	Not enough time to prepare for Term 2 when decision was made during holidays. It would have been better to have a staggered approach to open Term 2.	4/29/2020 1:43 PM
53	My greatest challenge has been steadying the ship ensuring information flow through is accurate and that staff are well informed by us rather than united voice correspondence. Overall we are in good shape; but I am conscious we only have 43% of our students.	4/29/2020 1:43 PM
54	The overload of information that needs to be processed on a daily basis, acted upon and/or shared with relevant school stakeholders regarding teaching and learning and curriculum adjustments, cleaning updates, hiring cleaners, sourcing cleaning products. Ensuring time is spent with staff to address any concerns they might have. Communicating with families in break times when so many families in our community are not online (approximately 40%) so hard copy letters are required or phone calls.	4/29/2020 1:26 PM
55	differing messages create differing perceptions and heighten angst teacher concerns and	4/29/2020 1:20 PM

	confusion re differing application of rules for them	
56	Raising staff morale after work and preparation for term 2 was not valued by the government.	4/29/2020 1:12 PM
57	Supporting classroom teachers in managing the workload in catering for face to face and at home learners. Classroom teachers are reluctant to hand over their students whether onsite or at home and this is proving to be a challenge in providing adequate support.	4/29/2020 1:03 PM
58	The requirement to manage distance learning while also teaching children in class. Distance learning is so much more than providing children with a printed package of work to complete.	4/29/2020 1:00 PM
59	Unpredictability of attendance, Juggling money to fund support for students working at home, trying not to go broke.	4/29/2020 12:59 PM
60	Some parents still walking into the school during drop off and had to be stopped by staff, parents not physical distancing, huge adjustments to timetables, creations of additional timetables for manning of each gate, heightened anxiety of staff, students and parents, and the ongoing challenge of trying to cater for both face to face and online learning from home. A huge weight is on my shoulders and sleep is quite elusive this week in particular.	4/29/2020 12:55 PM
61	Teachers engaging in the 3 modes of teaching and perceiving this as a work load issues. Engaging relief teachers to address this concern.	4/29/2020 12:52 PM
62	Mixed messages being put out from Department, Government and Media. Confusion from parents in regard to WA requirements versus Federal Government and other States positions. The expectations of the Department that during the school holidays we were accessible 24/7. Cleaning - being able to carry out the required cleaning within the allocated and additional FTE i.e. wiping the playground equipment with a cloth while incorporating OHS height restrictions. Managing Program Maintenance Works that are being carried out in classrooms as monies have to be expended this term.	4/29/2020 12:51 PM
63	Staff well-being is an issue and having to be so reactive as a leader	4/29/2020 12:48 PM
64	Managing student drop off and pick up. Managing staff anxiety.	4/29/2020 12:47 PM
65	Teaching and learning in different modes (face to face and online) as well as anxiety of staff	4/29/2020 12:45 PM
66	As we are a small school it hasn't been too difficult to change our plans. We are utilising the lessons that we had prepared for remote learning.	4/29/2020 12:42 PM
67	Not having a school fence and having a very open school site meant a lot of planning was needed to manage drop-off and pick-ups, although this went well this morning. Open school grounds also mean that we will have community using playgrounds out of school hours, so cleaning them is of concern.	4/29/2020 12:31 PM
68	Not having a break to refresh Not knowing number and having to create many plans Dealing with anxiety of staff and some of their social media posts working out the cleaning plans to suit k-12 college to ensure all required surfaces are cleaned	4/29/2020 12:30 PM
69	Juggling multiple curriculum delivery options and anxiety levels of staff	4/29/2020 12:28 PM
70	Staff being in close proximity to each other. No idea how many students are coming each day.	4/29/2020 12:28 PM
71	Uncertainty of attendance and direction. The goal posts kept changing from Term 1 to Term 2. Staff spent countless hours making packs and developing online learning.	4/29/2020 12:26 PM
72	Covering cost of dual delivery education	4/29/2020 12:22 PM
73	Balancing face-to-face and online learning. Socially distancing staff Student interactions during break - no distancing	4/29/2020 12:22 PM
74	Trying to somehow accommodate the students who have chosen to stay at home with parents who don't have enough internet, any clue of how to do anything. Cleaning playground equipment when cleaners are not allowed to have feet off the ground. Washing hands with limited amounts of basins	4/29/2020 12:20 PM
75	Adequately catering for those students who are remaining at home is my chief concern particularly those students who are academically at-risk. These students will fall even further behind their peers. In spite of the DG request to hire relief staff to manage these children this will be at the expense of something else within a very tight budget.	4/29/2020 12:19 PM

76	Trying to interpret inconsistent messages and recommendations regarding safety, health, wellbeing and educational models and explain this to staff students and parents to reassure them.	4/29/2020 12:16 PM
77	Accessing further supplies of cleaning products. Supplies have been ordered but no deliveries as yet.	4/29/2020 12:15 PM
78	Monitoring school gates Staff anxiety Providing for remote learning and keeping in line with what is happening in class. The fact that department has been so far behind the game with tech access up until now that our systems are struggling to cope, even with SMI	4/29/2020 12:14 PM
79	Managing 3 modes of delivery.	4/29/2020 12:12 PM
80	Waiting to hear advice from the AHPPC as to when and how our students can return to boarding. Biggest challenge is with the majority of our courses and certificates being hands on, this is very difficult to replicate via learning from home. From a staffing point of view, the mixed messages and inconsistency of advice for the community v school has caused a great deal of frustration and stress. They still want to know if we are safe, particularly as all our students are Yr 11 and 12s. They found the suggestion that children are classed as under 25s in the case of COVID comical and politically motivated. They want to know if the studies have distinguished between an 8 year old student and an 18 year old student.	4/29/2020 12:11 PM
81	Having to change direction with little or no notice for instance switching direction from Online Learning to classroom learning. Access to hand sanitizer and cleaning products . In the end I drove my UTE to a supplier and picked up the stuff myself, The CUA supplier couldn't meet our needs. Constantly staying abreast of changes as the Prime Minister and Premier reset the direction. Spending most of my holidays working and not getting a break. Managing my staffs anxieties. Managing the contradictions. you can play on the school playground equipment but you can't play at the local playground	4/29/2020 12:09 PM
82	Managing face to face and home learning Supporting parents/carers to facilitate home learning effectively Staff morale and well being Student well being Depth and breadth of curriculum delivery Ongoing communication requirements to staff and community Logistics facing schools to operate effectively from cleaning, school drop off and pick up, managing face to face and home learning, managing and making decisions on online budgets Decisions around AWA and WFM Uncertainty	4/29/2020 12:09 PM
83	Ensuring compliance with fluid expectations.	4/29/2020 12:06 PM
84	1.Communication with parents, and 2. Catering for Quality online learning for those staying away. The language used by the Premier, Minister and D G fail to talk about our core business which is "TEACHING and Learning". We can control the TEACHING but not the learning as this does not occur by osmosis..... 3. Constantly having to change direction, communicate to parents, communicate to and win over staff. Will know more as it evolves.....	4/29/2020 12:06 PM
85	Lack of consultation prior to announcement. Our good remote learning model now unworkable due to face to face teaching requirement. A rethink is now in order.	4/29/2020 11:57 AM
86	1) Managing teacher anxiety about the constantly changing goal posts and changing operational structures due to different directives. 2) Communicating with parents who do not want to follow guidelines around not entering school or sending children to school who are sick.	4/29/2020 11:56 AM
87	The changing climate and uncertainty as to how many children will turn up in the next few days makes planning difficult and staff anxiety. Managing anxious staff.	4/29/2020 11:55 AM
88	Managing the allocation of suitable staff to "teach" the distance education program.	4/29/2020 11:54 AM
89	Admin staff and teachers wanting to access carers leave or LSL to remain at home with their kids, given Catholic schools are closed or teachers don't want kids to go to school.	4/29/2020 11:51 AM
90	There is considerable confusion about the availability of hard copy and online resources. With most students and all staff returning we dont feel we can provide hard copy and online learning. The continuous media that parents can choose and that remote learning is available is unhelpful. There is also no information on the Govt release that the Dept has resources available. What and where?	4/29/2020 11:48 AM
91	Managing parents entering a large school site with no fences. Influx of information during the 'term break' and implementing this the changes with no support staff. Primary schools have no	4/29/2020 11:47 AM

	office staff during the holidays. Communicating with parents is difficult without administration staff to get the letters out. This was very frustrating.	
92	Catering for face to face and learning from home as we don't have enough Human Resources	4/29/2020 11:45 AM
93	It has been disappointing that the extensive planning for distance education and remote learning that staff had to do at the end of Term 1 and over the holidays was basically dismissed as parents were given the choice to send their child or keep them at home.	4/29/2020 11:40 AM
94	Concerned and frustrated staff. Inconsistent information in DoE documents. eg In the Term 2 FAQ on health, hygiene and cleaning, point 9 states that explicit teaching of good hygiene includes explaining to student why they should not share equipment. In other part of the document it says sharing of equipment should be limited. What should teachers, especially ECE teachers, do? The DG announced that libraries could be open. How does borrowing books or swapping home readers fit with 'not sharing equipment'? Managing two platforms in a small school with limited staff and budget. DP absent for weeks now so increased workload on Principal.	4/29/2020 11:29 AM
95	Unknown numbers coming in each day. The Minister stating parents can start students on any day is an issue. We have asked parents to start students on Mondays after advising the school of their intent to do so in order to better manage numbers attending.	4/29/2020 11:28 AM
96	We advertised we were open as normal and they all came back--we continue with the challenge of staff isolation as we are denied entry to WA--well without a good reason--our staff are in good spirits and working for one another	4/29/2020 11:28 AM
97	The announcement during the holiday break and therefore the requirement to put all the processes in place without key staff being present. Managing staff anxiety from a distance was also a challenge that did not need to occur. A start in week 2 would have been much more manageable, with students learning remotely in week 1 so that staff could feel better prepared and informed would I believe, ensured a less divisive return to school.	4/29/2020 11:27 AM
98	Preparing remote packages and then back to face to face teaching. Managing both modes.	4/29/2020 11:27 AM
99	Balancing Face to Face with agreed online commitment with families for the first two weeks. Can you move forward with new concept teaching when you have two different modes of learning ie F2F/OnLine plus hard copy work packages? Go with the flow doesn't work for most teachers. As professionals they want strong outcomes for kids. This doesn't help. Reducing burden by appointing specific staff to help children undertaking online so the teachers can teach. Communicating with parents about the contradictions in process. Parents Need stronger statement apart from parent choice, either Yes or No.	4/29/2020 11:25 AM
100	High anxiety levels of teaching staff	4/29/2020 11:24 AM
101	Communicating to parents.	4/29/2020 11:21 AM
102	The difficult of having 50% of students attending and 50% learning from home is extremely difficult to manage. Classes are just too big to be able to merge them effectively and still provide an effective learning program to those who are attending. This means that all classroom teachers are busy with full teaching loads and not available to support students learning from home during the day. We are having to employ additional staff to support students which puts increased pressure on school budgets which will effect opportunities which we can provide to students later in the year. Managing parent expectations and the massive supply of misinformation has also proven to be a challenge. The contradictory information from the department to teachers and schools is also an issue. Department was clear that teachers are not expected to teacher and provide home learning support, but no clarification around who is going to support students learning from home and how schools are going to pay for additional teachers.	4/29/2020 11:18 AM
103	Children coming one day but not the next. Parents choosing to keep students home but not doing the work, difficult to monitor. Staff are angry about being asked to go to work when others remain at home. The reason for children in school not having to socially distance but having to everywhere else, ridiculous.	4/29/2020 11:17 AM
104	Dealing with parents questioning /unhappy with the guidelines needing to be put in place. Keeping up with constant changes Managing the opt in opt out approach some parents are taking on sending students to school for some days and not others - leads to uncertainty in who will be on site each day	4/29/2020 11:17 AM

105	Managing staff anxiety. This has been the biggest challenge in the whole crisis - making staff feel supported and addressing their concerns whilst maintaining the corporate and rigorous functions of the school.	4/29/2020 11:15 AM
106	Uncertainty for staff in how to deliver the curriculum equitably, how this will affect students long-term and the fluctuation of student numbers.	4/29/2020 11:14 AM
107	Disadvantaged socio-economic school community. Families do not have wifi nor sufficient equipment for digital learning and many do not come to collect the paper work packages as the alternative.	4/29/2020 11:12 AM
108	Quelling the anxiety of just a few staff.	4/29/2020 11:12 AM
109	Staff and parent concerns regarding drop off and pick up but it went all very smoothly this morning. Processing leave - lots of documents to read through and ensure staff have supporting evidence.	4/29/2020 11:11 AM
110	Ensuring parents follow guidelines. Having parents decide if students attend or not - haphazard.	4/29/2020 11:09 AM
111	The educational program being provided for those remaining at home is not quality teaching and will create a further gap for those students who remain at home for long periods of time.	4/29/2020 11:06 AM
112	1. Teaching face-to-face and catering for students at home 2. Dissemination of work packages 3. Unsure of numbers that will present to school 4. Parents are picking and choosing when their child attends throughout the week; makes it very hard for a teacher to run some sort of coherent program when the class numbers are to be inconsistent day to day. 5. Parent drop offs, lots of parents still trying to walk their child on to the school site. When spoken to become agitated with the staff member	4/29/2020 11:05 AM
113	Spending the last 2 / 3 weeks of Term One preparing for online learning, including website upgrades, etc. to then have 60% of students at school today. Its likely by next Monday online learning will be superfluous.	4/29/2020 11:05 AM
114	Structuring the school with unknown numbers even though we did a survey of parents. Contacting all parents even though we have phoned, emailed, used FB and Connect. Keeping sports equipment, playgrounds and the school sanitised. Balancing on-line and face to face with reporting due this term.	4/29/2020 11:04 AM
115	The timing of the announcement (mid-way through holidays) has caused increased anxiety for staff. Principal workload and expectations that arrangements would be completed over the break while balancing family commitments have been concerning as we have a long 10 weeks ahead. Managing parent anxiety who can't enter the site will continue to be a challenge. Managing Teacher workload of staff - many who have school aged children and are needing to find solutions for this situation. Keeping the community informed without overloading them with information. Managing my own workload	4/29/2020 10:59 AM
116	We have a few staff on AWA. They meet criteria and hence we have to fund their replacements. There is no way to recoup this money via the SCFM. If you run out of money you are requested to submit a budget review.	4/29/2020 10:53 AM
117	Despite what Minister Ellery says we do have an ethical and moral responsibility to "teach" students at home creating even more workload and stress on staff.	4/29/2020 10:52 AM
118	* Cleaning - not possible to follow guidelines in fidelity * managing both online and face-to-face teaching * being on top of information - constant evolution * Toilet refurb not finished as DOE told contractors kids not back for first few weeks * staff fixated on reporting requirements and this not yet been made clear by DOE * SSTUWA sending mixed messages which is agitating some staff * managing parent expectations and keeping them off site is logistically time consuming	4/29/2020 10:48 AM
119	Cleaning playgrounds by hand instead of using a spray gun. This is an OSH problem. Expecting one cleaner to clean 4 classrooms during recess and lunch. I have to assist and so does and EA.	4/29/2020 10:46 AM
120	Uncertainty around student numbers meaning that we have to have multiple plans (5 or 6) ready to go with regard to curriculum delivery. While we now have the numbers to collapse classes to support teachers, there is a reluctance to do so due to the mixed messaging regarding physical distancing. Also, we are mindful of making any timetable changes due to the fact that we are likely to have more and more students filtering in over the next week and that	4/29/2020 10:46 AM

any changes we make would then be redundant and result in the need for more change and planning each day. With the numbers we have at the moment, this produces the problem of the teachers managing face-to-face and distance learning. While our minister has said that they will not be responsible for both, as educators, our teachers are struggling with the concept of only worrying about half of their students. We will be able to provide support for this through relief teachers but again, making plans around this is difficult as we anticipate the filtering in of students and the need for constantly evolving plans (almost by the hour).

121	Maintaining staff care and support. Communicating with a low ICSEA community over school holidays.	4/29/2020 10:44 AM
122	Providing ongoing learning and staff anxiety. Making contact with students who are absent from school and choosing to work from home. No clear advice still about Reporting to Parents.	4/29/2020 10:44 AM
123	As expected, the biggest issue was separation from parents at the gate. One K parent quite "brutal" in their drop off (pushed inside and left). Child now outside class door, nearly in – was communicating with me so at least we have the relationship started again but not our preferred start for an already anxious kid. 2 K students left with their parents as too challenging with the separation and honestly, I didn't want the phones to come out so privileged decision quickly. it isn't the nature of schools to be physically distant	4/29/2020 10:42 AM
124	Management of parents not coming to classrooms; students self regulation and prompting of hygiene practices (some students require hand over hand to do this and after having to do it a few times they become non cooperative about it and refuse (often these are students who also suck their fingers, or objects and require one on one support;	4/29/2020 10:40 AM
125	Health and WellBeing of Staff Half students at school and half at home (unknown numbers)	4/29/2020 10:38 AM
126	Ensuring the safety of all. Replacing and covering the cost of staff who fall into high risk categories. Keeping staff & the community updated on what is happening without creating greater confusion. Adhering to guidelines from authorities that are sometimes not practical has been difficult at times.	4/29/2020 10:36 AM
127	Managing face to face and online learning at the same time	4/29/2020 10:36 AM
128	Managing changing and varied expectations, from the Government, and then from families.	4/29/2020 10:34 AM
129	Face to face teaching with packages going home is fine but it is the parent contact that will drain our resources. We want to make contact but this will take all of teacher's DOTT. Parents more closely engaging with student learning has caused some concerns from parents about their child's ability levels - challenging teaching staff who are trying to cater for everyone.	4/29/2020 10:30 AM
130	Unknown student numbers on a daily basis, catering for students at school and at home, changing the timetable on a daily basis to allow teachers to check in with all their students. Utilising relief as suggested by DoE would not work as teachers need to check in with their own students. Relief would have to relay messages etc - not effective.	4/29/2020 10:28 AM
131	Class teachers refusing to support online learning families. The expectations that families with multiple children will be able to adequately access online learning for all their children for the whole day.	4/29/2020 10:27 AM
132	Implementing procedures to ensure an orderly smooth running school without knowing student numbers but ensuring social distancing amongst staff and parents.	4/29/2020 10:26 AM
133	Covering classes due to absent staff and delivering face to face and online - numbers don't work for both, either teachers teaching in class, or on line but with over half the students at school how do you address the at home student in a secondary setting?	4/29/2020 10:20 AM
134	Social distancing. Trying to support WFH arrangements for people who fall into the 'at risk' category out of our own budget.	4/29/2020 10:19 AM
135	Only had 5 days holiday. Spent all last week finding staff and cleaning products.	4/29/2020 10:15 AM
136	Managing workload for teachers with regard to face to face teaching v learning at home.	4/29/2020 10:15 AM
137	The mixed messages that our Minister of Education has given, including my staff will be teaching the 3 modes of delivery. The contradictions that my staff have deal with in relation to schooling compared to other areas of the community.	4/29/2020 10:13 AM
138	providing online, supporting online as well as focusing on the classroom.	4/29/2020 10:13 AM

139	Half school attending, half school not attending Getting cleaners and materials in holiday time, calling people into work.	4/29/2020 10:13 AM
140	CONFLICTING MESSAGES -IS IT SAFE OR NOT, HUGE AMOUNTS OF CHANGING INFORMATION TO READ, DIGEST AND IMPLEMENT WHILE AT THE SAME TIME MANAGING STAFF AND COMMUNITY ANXIETY.	4/29/2020 10:13 AM
141	Being able to do both face-to-face and distance learning in a single stream school.	4/29/2020 10:09 AM
142	Finding the balance in teacher and admin load in regards to supporting families at home and students at school.	4/29/2020 10:08 AM
143	parent s not reading communication updates. Breakfast Club- we will run with our staff and only have takeaway toast to help our families.	4/29/2020 10:06 AM
144	The sudden adjustment from Online Learning to Face to Face as well as the need to still support students learning from home. Cleaning time is inadequate and we require students to clean their work spaces when departing a common use room.	4/29/2020 10:05 AM
145	Catering for students at home and allowing DOTT for teachers to prepare this	4/29/2020 10:00 AM
146	No Parents on Site when we are not a fenced community.	4/29/2020 10:00 AM
147	Getting back to core business	4/29/2020 9:59 AM
148	I am concerned about the risk of infection during the first 14 days given staff and students have been away from school and I cannot be certain of their contacts in the wider community	4/29/2020 9:58 AM
149	Maintaining face-to-face and distance education	4/29/2020 9:53 AM
150	Keeping staff reassured that they will be able to safely do their job. Many EAs are terrified.	4/29/2020 9:53 AM
151	It will be up to the leadership team to manage the distance education for the roughly 30% of students who are learning from home. This is to enable our teachers to focus on one method of delivery, reduce teacher stress and ensure we are back to delivering the highest quality education face-to-face for students who are here. The time required to manage the distance education will be significant and is our greatest challenge.	4/29/2020 9:53 AM
152	uncertainty in numbers and staff feeling like they would be pulled in multiple directions.	4/29/2020 9:52 AM
153	We have been fortunate in having most children return therefore we have not had to face many challenges. Thank you	4/29/2020 9:50 AM
154	End of last term miscommunication from DG i.e people who are compromised can access WFH, then her letter said they couldn't, then they changed it back again. A LOT of wasted time, effort and energy that took control out of the Principal's hands in a time when contextual awareness is of paramount importance.	4/29/2020 9:50 AM
155	Managing teacher workload to provide work packs / online learning for students self isolating, while running a normal full school timetable - As a DHS, in general, we only have 1 content expert per learning area and they must teach all of their classes and cater for students at home (just over 50% at school)	4/29/2020 9:48 AM
156	Maintaining the amount of cleaning and hand sanitizer products and planning for the duration of the term	4/29/2020 9:47 AM
157	The constant changes which we plan for and the need to change coupled with parents not following the instructions and sending kids to school who are sick.	4/29/2020 9:45 AM
158	Mental health and well being of staff and students.	4/29/2020 9:45 AM
159	Trying to explain to parents why my staff are exceptionally excited about getting children back to school and feel well prepared for it, whilst unions are saying other things and taking out full page ads asking parents to help teachers out. Sorry, this doesn't apply to us, so whilst I support the union in general, I believe they've got it wrong this time.	4/29/2020 9:39 AM
160	Staff isolating	4/29/2020 9:37 AM
161	that they come back in dribs and drabs	4/29/2020 9:36 AM
162	Those parents who have exercised the choice to learn from home when the teachers are	4/29/2020 9:33 AM

	teaching the majority face-face. However we expect more to attend from Monday.	
163	Keeping parents off the school site. Lack of adequate preparation time for teachers to prepare for the return of students given that teachers had prepared for distance learning during the final week of term 1 and the holiday period.	4/29/2020 9:33 AM
164	none - most have returned except 6 students who have work packages provided. I expect most of these students to return next week	4/29/2020 9:30 AM
165	Small school doesn't allow for teachers to be freed up to create home learning. At this stage teachers in class and principal is teacher responsible for home learning.	4/29/2020 9:28 AM
166	Regional Office - A/RED phoned during holidays suggesting we get more relief than we thought we would need. When a parent complained to RO that their child may not have their class teacher, RO directed the school to send out communication saying they were wrong and that students would have their class teacher!	4/29/2020 9:27 AM
167	being constantly on the back foot and having to react to changes in policy and direction.	4/29/2020 9:27 AM
168	Parents not appreciating the efforts or expectations I set out for staff.	4/29/2020 9:26 AM
169	The split between Face to FACE, Online and Offline	4/29/2020 9:23 AM
170	Online learning and face to face	4/29/2020 9:22 AM
171	Staffmembers who are overly concerned about Covid-19.	4/29/2020 9:21 AM
172	Operational matters are complex running both online and face to face learning, DOTT and yard duty rosters with different break times offered. Parents being left with the choice has resulted in many calls received with community uncertainty regarding the decision of the Government while not being able to provide guarantee of student safety.	4/29/2020 9:18 AM
173	Parents not adhering to dropping students at the gate and walking through the school	4/29/2020 9:15 AM
174	Keeping all of the school community safe and satisfied - students, teachers parents etc.	4/29/2020 8:56 AM
175	Staff anxiety is the biggest challenge. Second is not getting clear messages from central office staff.	4/29/2020 5:30 AM
176	Playground could be problematic.	4/28/2020 2:26 PM
177	The contradicting information/directives that is being provided to the general public, but doesn't apply to students or staff because somehow we are immune to the virus. As one parent put it to me, "If I'm not allowed on the school site, why are my children? They are just as likely to carry contagion from me to a teacher as I would directly." Parents don't believe or trust the information being put out by our politicians leading to most students staying away. This is going to make it difficult to cater for good education of all our students.	4/28/2020 2:04 PM
178	Communicating a clear message to school staff, students, parents and community. It's great DoE give out reams of information but it is often overwhelming.	4/28/2020 12:30 PM
179	Before Term 1 finished the staff knew where they were going with 'learning from home', politicians seem to be under the impression that educators are immune and therefore have to accept what ever laws and rules they see fit to change at the drop of a hat. The messages are too mixed, we either have social distances, physical distancing or we don't. Surfaces need to be cleaned but now the students do not have to social distance!!!!	4/28/2020 12:04 PM
180	Doing both online and face to face. Have enough students attending not to combine classes so need additional staff to handle both modes. Also managing pick up and drop offs.	4/28/2020 11:48 AM
181	Devaluing of teacher's work in making the work packages and hence the moral of the staff, when told to now do face to face teaching. Connect is used consistently in high schools but not in primary schools, teachers had to learn new skills and now that parents have been informed that they can chose their children to attend or not, staff feel very devalued.	4/28/2020 11:40 AM
182	Continuing to monitor school cleanliness and preventing parents from entering the school.	4/28/2020 11:35 AM
183	Managing parent attendance onsite and general anxiety of staff around the COVID-19 situation.	4/28/2020 11:32 AM
184	Managing movement of children from the gate to the classroom in the morning, and from classroom to gate at pick up time. Managing learning for kids face to face while also addressing	4/28/2020 11:23 AM

the learning needs of kids at home. Managing physical distancing in an early childhood setting, as well as with kids with special needs.
