Notes from Bevan ( phone meeting on Saturday)

Key concerns for the WA APF

- Students who move across state borders and have a diagnosed disability or ID number -this is not recognised in WA and creates greater issues for schools/ families as the applications need to be redone - Can this process be streamlined across the nation?
- The national curriculum is constantly being tinkered with- can we let this settle for a period and provide certainty
- Federal approach to teacher training- content of the courses, time in schools training and attraction measures to getting best candidates and keeping them in the service

Principal Class workload

Leadership challenges

Invitation to meet in state offices when away from Canberra

Next steps

- Scheduled meetings / invitations to join consultative / implementation process
- Connection with dan and the Federal Office
